

# Front-End Developer

## Landing Page Test

**PostcardMania**

*Postcard Marketing Experts*

### Instructions:

Program a landing page using Bootstrap (<http://getbootstrap.com/>) based on the design provided.

### Requirements:

- The landing page should be responsive.
- The form should have field validation for Name and Email.
- The form should send an email to the website owner.
- The form should send a confirmation email to the form filler.
- There should be a thank-you/confirmation page once the form is filled.

### You will be graded on:

- Code quality
- Logic
- File organization
- Accuracy of final product vs design proof
- How well the website responds/collapses on smaller devices
